

# 2016 LIGHTFEST Re-Ignited

## Global Footprint Project

### Putting Passion into Action to Stop Hunger

Create an impact project by putting your passion into action. This will increase the Global Footprint We Survive's LIGHTFEST Re-Ignited has made.

### Together we will change lives

By creating your own impact project, you support We Survive's LIGHTFEST Re-Ignited with an investment in the future of our children while transforming your passion into a course of action.

Your support of LIGHTFEST Re-Ignited brings awareness to those in poverty, susceptible to poverty, hunger and homelessness. Goals for LIGHTFEST Re-Ignited are:

- Inspiring HOPES and Dreams while bringing awareness to the issues of hunger and homelessness
- Foster positive interactions
- Spread a message of HOPE Worldwide on November 5, 2016 at 6pm Eastern Time (around the world), by displaying a Light of Hope. It can be a porch light, candle or flashlight...spread the word to friends and family. This can be done as a group or individually.

A 2015 project, the production of a LIGHTFEST Re-Ignited invitation video and mural project created by youth was "Pure Passionate Power" [https://www.youtube.com/watch?v=LY4JddoY\\_lo](https://www.youtube.com/watch?v=LY4JddoY_lo)  
The murals were displayed at WE Day Kentucky 2016. Read more about activities held during 2015-16 to support LIGHTFEST Re-Ignited <http://wesurvive.org/lightfest-re-ignited-events/>

## How Do I GET STARTED

Create your own impact project with just a few easy steps:

- Pick a Project that **IGNITES** your passion and offers HOPE. It can be in honor of a loved one, an organization, a school project, community service project or create your own project like Lauren's Lighthouse. <http://wesurvive.org/community-service-becomes-a-compassionate-mission/>
- Start your personal campaign using tools to connect with family, friends, neighbors, classmates or co-workers.
- Share your message of HOPE

Please send us the information regarding your impact project or event so we can keep a record and post/showcase your project. You can contact us at [lightfest@wesurvive.org](mailto:lightfest@wesurvive.org)
